

Drop off and pick up policy

On Sunday June 5th we be kicking off our new drop off and pick up policy. If you have an infant, toddler, or preschooler, we are asking that you take your children to their classrooms and hand them off at the door. Someone will be there to take them from you. Drop off can sometimes be very hard. Especially if parents want to hang out to make sure their child is ok. Which I totally understand, but that can make it harder on your child and other children. We feel this is going to be the best way to help your child get adjusted a lot faster.

If you have a Kindergartener-4th grader, you will drop them off at the door and one of our runners will be taking them back to the large group space. Each age group will have a specific color rug designated for them (which will be determined this weekend). The children will meet at their same color rug every week where the small group leader will be waiting for them. They will then work on the month's scripture, play board games, and do small group activities until it is time for worship. Then as a small group, they will go to worship and Bible story time together. Your child or children will be with his or her small group through every activity all morning. There will no longer be free play or ball time while in the K-4th grade space. Of course there will be times we will allow that but most Sundays-your children will be with their small group.

At pick up time we will be bringing your children to you. With the exception of infant parents-there will be NO parents allowed in the hallway. This is so we can make Kid Village as safe and secure as possible and prevent traffic jams. We will have students (who have already been working with your children) be bringing the children up to the door where security will check your tags.

The Kid Village hallway doors will be closed shortly after service starts. If you must come back to Kid Village after the doors are closed-please check with the security guys. They will be able to assist you with what you need.

I know that all of this is new and will be an adjustment. I ask that you please bear with us as we figure things out and work out all the kinks. We will adjust things as needed and always try to make things as smooth and as safe as possible. Please feel free to contact me with any questions.
